

HARDING URGES WORLD TO MAKE ARMAMENT CUT

burial of an unknown American soldier, when a nation sorrowed while paying him tribute. Whether it was spoken or not, a hundred million of our people were summarizing the inexcusable causes, the incalculable cost, the unspeakable sacrifices and the unutterable sorrows, and there was the ever impelling question: How can humanity justify or God forgive? Human hate demands no such toll and ambition and greed must be denied it. If misunderstanding must take the blame then let us banish it, and let understanding rule and make good will reign everywhere. All of us demand liberty and justice. There cannot be one without the other, and they must be held the unquestioned possession of all peoples. Inherent rights are of God, and the tragedies of the world originate in their attempted denial. The world today is infringing their enjoyment by arming to defend or deny, when simple sanity calls for their recognition through common understanding.

Need Higher State

Out of the cataclysm of the world war came new fellowships, new convictions, new aspirations. It is ours to make the most of them. A world staggering with debt needs its burden lifted. Humanity which has been shocked by wanton destruction would minimize the agencies of that destruction. Contemplating the measureless cost of war and the continuing burden of armament, all thoughtful peoples wish for real limitation of armament and would like war outlawed. In soberest reflection the world's hundreds of millions who pay in peace and die in war wish their statesmen to turn the expenditures for destruction into means of construction, aimed at a higher state for those who live and follow after.

It is not alone that the world can not readjust itself and cast aside the excess burdens without relief from the leaders of men. War has grown progressively cruel and more destructive from the first recorded conflict to this pregnant day, and the reverse order would most become our boasted civilization.

Gentlemen of the conference, the United States welcomes you with unselfish hands. We have no fears; we have no record ends to serve; we suspect no enemy; we contemplate or apprehend no conquest. Content with what we have, we seek nothing which is another's. We only wish to do with you that finer, nobler thing which no nation can do alone.

Demand Sober Thought

We wish to sit with you at the table of international understanding and good will. In good conscience we are eager to meet you frankly, and invite and offer cooperation. The world demands a sober contemplation of the existing order and the realization that there can be no cure without sacrifice, not by one of us, but by all of us.

I do not mean surrendered rights, or narrowed freedom, or denied aspiration, or ignored national necessities. Our people would no more ask for these than it would give. Pride need be humbled, no nationality submerged, but I would have a merge of minds committing all of us to less preparation for war and more enjoyment of fortunate peace.

The higher hopes come of the spirit of our coming together. It is but just to recognize varying needs and peculiar positions. Nothing can be accomplished in disregard of national apprehensions. Rather, we should act together to remove the causes of apprehensions. This is not to be done in intrigue. Greater assurance is found in the exchanges of simple honesty and directness, among men resolved to accomplish as becomes leaders among nations, who civilization itself has come to its crucial test.

Robbed of Happiness

It is not to be challenged that government fails when the excess of its cost robs the people of the way to happiness and the opportunity to achieve. If the finer sentiments were not urging, the cold, hard facts of excessive cost and the eloquence of economies would urge us to reduce our armaments. If the concept of a better order does not appeal, then let us ponder the burden and the blight of continued competition.

It is not to be denied that the world has swung along throughout the ages without heeding this call from the kinder hearts of men. But the same world never before was so tragically brought to realization of the utter futility of passion's sway when reason and conscience and fellowship point a nobler way.

I can speak officially only for our United States. One hundred millions frankly want less of armament and none of war. Wholly free from guile, sure in our own minds that we harbor no unworthy designs, we accord the world with the same good intent. So I welcome you, not alone in good will and high purpose, but with high faith.

We are met for a service to mankind. In all simplicity, in all honor, there may be written here the avowals of a world conscience refined by the consuming fires of war, and made more sensitive by the anxious aftermath. I hope for that understanding which will emphasize the guarantees of peace, and for commitments of less burdens and a better order which will tranquilize the world. In such an accomplishment there will be added glory to your flags and ours, and the rejoicing of mankind will make the transcending music of all succeeding time.

Tiny Cards Gum Up Efficiency At Postoffice

Mailing of undersize postal cards and letters is a cardinal sin as far as Appleton postoffice is concerned. This was the announcement Thursday from Postmaster Gustave Keller who appealed to all patrons of the postoffice not to missives smaller than regulation size.

With the holiday season approaching, Mr. Keller said, people are apt to forget the postal ruling and mail diminutive letters and cards sloppily because they are different from the ordinary.

These freak articles cause no end of trouble in the postoffice. They can't be tied up with bundles of regular size letters because they invariably drop out. They can't be run through the stamp cancellation machine because the address instead of the stamp would be cancelled and the letter or card would be discarded and possibly mutilated.

Under size letters or cards are too small to go through the facing table so they must be handled three times extra and this delays the transmission of this and other mail. They are harder to sort, are awkward to handle and are aggravating to postal employees.

"These odd and diminutive sized pieces of stationery, Mr. Keller said, 'have come into use in the past few years and only appear now in quantities at Christmas time when the whole postal organization is keyed to top speed and is trying to keep on top of the load.'

FORESTERS PRACTICING FOR FIRST BASKET GAME

A practice was held Friday night by the Catholic Order of Foresters basketball team in St. Joseph's gymnasium in preparation for their first game next Thursday night when they meet the National Guards at Armory G.

The team has scheduled several games with strong teams. One of these is with the DeSoto court of the Catholic Order of Foresters of Chicago.

The local lineup is: Skall and Verbrich, forwards; Hollenbach, center; Reider and Palmer, guards; Murphy, Steger and Kamps, substitutes.

SHOW IMPROVEMENT IN WRAPPING PARCELS

Appleton's perfect package record improved Thursday when only six of the 2,199 packages received for shipment by local transportation companies were classed as imperfect.

Three bills of lading did not show contents and goods being shipped. One parcel was not properly marked. One was not tagged as it was billed and one carried old addresses which had not been properly erased.

Named on Committee

John C. Ryan has been appointed a member of the educational committee of the Wisconsin Poultry Breeders' association by J. F. Martin, president. The other members are J. G. Halpin, Madison; S. D. Kimball, Pine River; A. N. Johnson, River Falls; and H. D. Dittmar, Milwaukee.

Awarded Patent

Peter A. Paulson of Appleton who is in the employ of the Kimberly-Clark Paper company has received a patent for an invention which will produce certain by-products through a process which he has worked out. The announcement is made by Young and Young of Milwaukee, patent solicitors.

Roof on Fire

Early Saturday morning a spark from the chimney set fire to the roof of the Methodist parsonage which is occupied by the Rev. J. A. Holmes and the fire department was called out. The use of a small chemical extinguisher quenched the blaze.

William Strong of Madison was an Appleton visitor Saturday.

The Annual Christmas Sale of Fine Dress

This Great Selling
starts with the opening
of the store Monday
closes Saturday night

In years past, the annual Christmas Sale of Silks has been looked forward to as one of the biggest bargain events of the whole year.

Monday morning opens the Christmas Sale of Silks for the year 1921 — a sale that will surpass anything that this department has ever attempted before.

For months we have been combing the markets in preparation for the counters that will await you Monday morning. Our buyer talked with some of the best known silk manufacturers of the country and secured extraordinary price concessions from them—in order that you will find the values you expect.

Every piece offered is NEW—new in the store, in coloring, in texture — and the prices are NEWER than all the rest. New reductions that mean many more new clothes than you had planned this winter.

These Silks Are All Brand
New—Fine Qualities Bought
at Great Price Concessions
for this Christmas Sale

Pongee 95c
This is a good quality, natural color, does not contain powder. Twelve momie grade. 32 inches wide. Sold recently at \$1.50—

Christmas Sale Price \$1.35 a yard.

Thousands of yards of
the most popular of the
Seasons Silk Fabrics
are Markedly Reduced

Few seasons have made such an extensive use of silk as we have seen this Fall and for the coming winter. Silks for gowns—for underthings, for men's shirts and a score of other uses.

Not a single piece of silk but what can be put to good use right at once.

The prices are the best we have ever offered in any sale and there is real doubt that we can offer anything anywhere near so good after the sale is over. This is especially true of some of the newer weaves.

If you would practice economy—buy at the silk sale and sew at home. The Butterick patterns with the Deltor will guide you and there are plenty of garments as well as Christmas gifts that you can make inexpensively in this way.

Nothing is reserved—every piece goes on sale Monday morning—make your selection as early as possible.

Several Big Manufacturers are
Cooperating With Us to Make
this Sale a Success that will
Eclipse Past Similar Events.

Deposed Governor Starts New Revolt On Mexican Border

Score are Killed When Cantu
Rebels Attack Mexican
Federal Troops

FINANCED BY AMERICANS

Americans Flee from Lower
California as Clashes
Spread to New Towns

By Frank H. Bartholomew
San Diego, Calif.—Four hundred
Mexican federal troops marched out of
Tia Juana, Baja California, opposite
San Diego Monday, en route eastward.
They were reported to be en route to
attack Mexican rebels near the Ameri-
can border.

San Luis, Mexico.—A revolution
again at the Obregon government of
Mexico which broke out in Lower
California Sunday, was reported Mon-
day to have spread to Sonora.

The revolt, resulting in a clash
with Mexican regulars within six
miles of the American boundary, in
which at least twenty were killed,
was said to be headed by Estaban
Cantu, former governor and virtual
dictator of Lower California during
the Carranza regime.

Refugees Flee to U. S.
The frontier was closed to Ameri-
cans Monday and hundreds of Mexi-
can refugees were pouring across the
border.

Obregon reinforcements were being
rushed into Lower California, and
Sonora and Mobilization of revolu-
tionists was reported at various
strategic points close to the American
line.

The revolution—alleged to be
financed largely by Americans with
large interests in Lower California,
including big gamblers—had been
brewing for weeks. The first armed
clash occurred Sunday in San Anto-
nio Canyon, only six miles south of
Tia Juana, the famous sporting cen-
ter on the California border. The
bodies of ten federal troops were
brought into Tia Juana Sunday night,
according to United States customs
officers.

Tia Juana was virtually deserted
Monday. At Tecate, six miles east
of San Diego, Calif., more than a
thousand refugees were said to have
crossed the line.

Federal Troops Arrive
One detachment of 500 Mexican
federal troops was reported to have
landed on the west coast of Lower California
and to be hurrying toward the
trouble zone in forced marches. An-
other contingent was said to be
moving northwestward in Sonora.

Valuable concessions held by cer-
tain interests in Lower California
during Cantu's regime, during which
he was paid heavily, were cancelled
when President Obregon forced him
out of office. Cantu fled to California.
Recently he was said to have estab-
lished a junta in El Centro, a town
in the Imperial Valley where he
gathered about him many former
Carranza adherents.

Whole-sale arrests of Cantu spies
have been made in Tia Juana and
Mexicali and Gov. Ybarra has ad-
mitted that many were executed in
the latter town.

Plotters Arrested
Fifty Cantu plotters with a large
shipment of fire arms, ready to
march into Mexico, were recently ar-
rested by United States customs offi-
cers in San Diego.

About 300 of the Cantu revolution-
ists were said to have been living in
San Diego for the last two weeks,
drawing \$1 a day each from some
mysterious source. About 50 of them
were arrested by the police on vag-
rancy charges but the others made
their way across the line Saturday
night. It was those who clashed with
the regulars at San Antonio Canyon.
Early Monday a few Americans
were permitted to enter Tia Juana to
guard their homes at the race track.
San Diego, Calif.—Mexican federal
officers who crossed the border Mon-
day told the United Press correspond-
ent that seventeen were killed in Sun-
day's fighting at San Antonio Canyon,
south of Tia Juana. They stated that
of these only two were rebels.

PIONEER BUILDER OF RAILROADS IS DEAD

Minneapolis, Minn.—Charles H.
Prior, pioneer railroad builder, died
Sunday night of pneumonia at a hospi-
tal here. A week ago he fell and
suffered a broken hip. He was 83
years old.

Under his direction the first line
of the Chicago, Milwaukee and St.
Paul railroad was brought into the
town cities in 1870. Later he extend-
ed the line throughout Minnesota and
into North and South Dakota. He
played a prominent part in laying
out the town of Aberdeen.

GAG WATCHMAN; ROB CHURCH OF \$2,000

Chicago.—The All Saints Catho-
lic church here was robbed of
\$2,000 by fire handle early
Monday.

Leo Gapsinski, a watchman
was bound and gagged. The safe
of the church building and loan
association in the basement was
thrown open and its contents
scooped into a bag.

TEN PERISH WHEN 80 ARE TRAPPED IN TENEMENT FIRE

People Clinging to Windows to
Escape—Flames Are Res-
cued from Plight

New York.—Nine persons were killed
and one fatally injured in a tenement
house fire at Sixteenth street and
Sixth avenue early Monday.

The dead included three women,
two children, two men and two per-
sons so badly burned that their sex could
not be determined. The list of dead
leaped from a third floor window died
in a hospital.

Many occupants of the tenement
were overcome by smoke and
rescued by postoffice employees, police
and firemen.

All the dead were found on the
fourth floor where they evidently
were overcome by smoke and lay
senseless until the fire swept over
them.

There were about 80 persons in the
building when the fire broke out and
spread with great rapidity, sweeping
from floor to floor. Men and women
hung from windows and huddled the
narrow edges. Fifteen were removed
from a coping on the second floor by
postoffice clerks with a 12 foot lad-
der. Benjamin Diaz, hanging by his
hands from a third floor window from
which flames burst, finally let go
while the crowd groaned. He died
later. I. Mullance climbed to a fire
escape on the fifth floor and was
pushed off by a hysterical woman.

He fell but enabled the fire escape
clow and hung by his hands until
rescued. Many were carried down
a 25 foot ladder by firemen.

Men in Every Walk of Life Ap- peal to Public to Support Work of Great Organization —Legion Ordered to Help.

With practically every man of
prominence in the United States,
from President Harding, down, in-
dorsing the Red Cross, and its work,
there is every reason to believe that
the campaign which is in progress in
Appleton and all over the country to
enlist every person in its work, will
be a mighty success. Preliminary
reports of the campaign in this coun-
try indicate that local people will not
be found wanting and that the work
which the Red Cross is doing is ap-
preciated. The best way to show ap-
preciation for the work carried on
thus far is to provide funds for con-
tinuing it and this can be done by en-
rolling as members.

President Harding recently issued a
proclamation in which he called on
the people of the United States to
open their hearts and their purses to
the Red Cross appeal. This proclama-
tion was followed by letters of in-
dorsement from men in every walk of
life, including governors, church dis-
tinctures, generals, financiers, manu-
facturers, labor leaders and many
others.

John G. Emery, former commander
of the American legion, in a letter to
all state commanders, declared it is
desirable that all American legion
posts cooperate with the Red Cross
chapters in their localities to make
the campaign a real success.

"The continuance of effective Red
Cross service to veterans, which al-
ready involves an annual expense
several millions in excess of receipts
from the last roll call, depends to no
small extent upon the public support
of society expressed in memberships,"
Mr. Emery said. "Please make cer-
tain, therefore, that the members of
your post all are in their power with
the Red Cross with its task of enroll-
ing members during the Roll Call
period."

Governor Blaine, in his proclama-
tion, reviews the work of the Red
Cross in the relief of suffering, in
public health education, aid to former
service men and other activities, and
then calls on the people of the state
to support its work.

"I trust that the Red Cross mem-
bership campaign will receive the
concordant support of the people of our
state in a way to maintain unimpaired
the work of this organization to meet
the great emergencies in the future,
if they occur, as it has met them in
the past," the governor said.

Demand U.S. Suspend Its Naval Program

British And Japs Sure To Accept Plan

Balfour Will Make Speech Tues-
day Approving Hughes Pro-
gram—Japs Expected to In-
dorse Armament Cut With
Modifications.

By United Press Leased Wire
Washington.—Great Britain Tues-
day will "accept in principle" Ameri-
ca's sweeping program for a limita-
tion of armaments.

This statement was made Monday
by high sources of the British dele-
gation.

"Mr. Balfour, as head of the Brit-
ish delegation, will make a very im-
portant speech Tuesday accepting in
principle the American program," a
British leader said.

"He clearly indicated that official
word as to the American program
had been received from London. Bal-
four's speech, although to be ex-
temporaneous, will be a complete and
comprehensive reply to the proposals
enunciated to the world by Secretary
Hughes.

A source in close contact with the
Japanese delegation informed the
United Press that Admiral Baron
Kato also will probably speak Tues-
day, accepting "in principle" and
perhaps outlining Japanese objections
thereto.

Modify Terms
Balfour will suggest that the
American figures on submarine ton-
nage be modified, it was learned.
Hughes proposed that the United
States and Great Britain be permit-
ted 30,000 tons in submarines. That
figure was in excess of the total
British submarine tonnage at the end
of the World war, it was pointed out,
that it seems unwise, in a plan for
limiting naval armaments, to in-
crease the submarine arm.

Another question which it was said
would require elucidation is replace-
ment. It was pointed out that dur-
ing the 10-year naval holiday pro-
posed all the shipyards would be
"out in cold storage" and that it
would be difficult to start them work-
ing again after a ten year lay-off.
This point presents no difficulties that
cannot easily be overcome, it was
indicated.

Japan wants to know how far
America plans to go in fortifying the
Pacific; America will be interested,
too, to know what Japan's ideas are
regarding making a Japan Heligoland out
of the Bonin Islands and strongholds
out of the Caroline and Marshall Is-
lands, given Japan under a mandate
of the Versailles treaty.

However, the Japanese delegates
are taking the whole scheme in good
part, and apparently are ready to
accept the Hughes program—with the
best modifications they can get.

Gotham Strike of
Garment Workers
May Envelop U. S.

Fifty-five Thousand Protest Re-
sumption of Piece Work
Wage Method

By United Press Leased Wire
New York.—A strike of 55,000 gar-
ment workers started here Monday.
The walkout is directed against
resumption of the piece work method
of estimating wages.

The employers violated their promise
to restore the piece work system.
Ben J. Schlesinger, president of
the International Garment Workers
said his organization had a \$2,000,000
war chest.

Thousands of men and women
strikers poured into the streets from
buildings around Union square and
on lower Fifth avenue. Three thou-
sand factories were affected.

Shouting and singing, the strikers
formed ranks and marched in coordi-
nation to various meeting halls scat-
tered all over the district.

Their leaders said "they were
ready for a five months strike. Manu-
facturers declared the price of wo-
men's clothing would not be affected.
Schlesinger said the strike here
would be followed in a few days by
a strike at Chicago and Philadelphia.

The walkout may develop into a
nationwide one, he said. Thousands
of garment workers were parading
the streets of the east side this
afternoon.

NEW JAP PREMIER MAKES NO CHANGES

Tokio.—"The policies of the Japa-
nese government will not be changed
under any premiership," Baron
Takahashi, who was installed Sun-
day as the new premier of Japan,
declared in an interview Monday.
Takahashi succeeds the assassinated
Premier Hara.

The new premier indicated there
would be no changes in the cabinet
or in the personnel of the delegation
to the Washington conference on
limitation of armaments. He will re-
tain the finance portfolio.

TEN MILWAUKEE HEROES HONORED

Milwaukee.—More than 10,000 per-

bodies had been returned from
France.

Kuhler August F. Gerhardt, former
chaplain of the 325th Infantry pro-
nounced the invocation, Rabbi Sam-

Congress May Halt Spending Of Millions

Show of Sincerity and Setting
of Fearless Example to Arms
Conference Delegates Is Aim
of Movement in Both Houses.

By Herbert W. Walker
By United Press Leased Wire

Washington.—A demand for action
on his resolution authorizing the pres-
ident to suspend all or part of the
naval building program for six
months was made in the senate Mon-
day by Senator Pomerene of Ohio.

Congress will declare a "naval holi-
day" until the arms parley ends in
success, or failure, leaders of both
houses said Monday.

During that time, no appropriation
of any sort for America's sea forces
will be made, as another evidence of
America's sincere desire for arms
limitation.

Curtail Appropriations
Not a dollar will be allowed by the
house appropriations committee for
any naval purpose, despite the fact
that the annual estimates for the sea
forces are scheduled to reach congress
early next month and a request for a
deficiency appropriation of \$27,500,000
is before the committee. Representa-
tives in charge of naval appropriations,
said.

The senate can pass no appropri-
ation bill, unless it is first approved by
the house, but Kelly said senate lead-
ers are thoroughly in accord with the
house plan.

Before the American naval reduc-
tion plan was revealed, the navy de-
partment, it was learned, had
planned to ask congress for an ap-
propriation of approximately \$405,
000,000 for the next fiscal year, be-
ginning July 1, 1922. The appropriation
for the present year is \$444,000,
exclusive of the \$27,500,000 addi-
tional recently asked. The estimate
no doubt will be held up pending ac-
tion by the conference.

Either Scrap or Expand
When the final chapter of the con-
ference is written, Kelly said, con-
gress will be ready to take one of
two courses—scrap America's build-
ing program, if other nations agree,
or go ahead and make the United
States navy as powerful as any in
the world.

Scrapping of the present building
program will cost the United States
at least another \$300,000,000, Kelly
estimated. "This represents the prob-
able amount of cancellation claims on
contracts on which much work has
been done."

The American government, its
sweeping program for a big cut in
sea forces having received spontane-
ous and unqualified support through-
out the country, was preparing Mon-
day to take its second major step in
its program of armament limitations
and settlement of Far Eastern
questions.

Next Steps Told
This step is expected to be taken
at the second plenary session of the
conference Tuesday morning. In a
general way, it is expected to consist
of:

1. Receipt of formal replies from
the British and Japanese delegations
to the American proposals for limit-
ing naval armaments. Both Britain
and Japanese will accept, in prin-
ciple, but probably will suggest cer-
tain modifications as to detail.

2. Reference to committees of the
various modifications and amend-
ments suggested.

3. Introduction before the full con-
ference of Far Eastern and Pacific
questions.

Secretary Hughes, head of the
American delegation, it is now ex-
pected, will outline to the delegates
of the nine powers the same sort of
definite program of dealing with Far
Eastern questions as he proposed
with respect to naval armaments.

Secretary Hughes intends to press
the naval limitation question to the
earliest possible solution, without
however neglecting the Far Eastern
questions. His program, therefore,
is to keep Britain and Japan concen-
trating with the United States on
the naval proposals, while at the
same time setting all the powers to
work on the Far Eastern problems in
which every delegation has an
interest.

EXPECT BLAINE TO SPRING SENSATION IN RODD HEARING

Statement Intimates That
Rhinelander Firms Tried to
Control Officials

Madison.—Sensational charges of a
conspiracy to coerce and intimidate
him were made by Governor John J.
Blaine Monday morning at a hearing
being held before him on a complaint
of dereliction of duty against Sheriff
Hans Rodd of Oneida county.

The accusation against Rodd and
the hearing are the outgrowth of an
affair wherein the executive's war-
rant for a pardon for Peter Christ,
Rhinelander striker, sentenced to
four months imprisonment on a
charge of contempt of court for pick-
eting, was refused acceptance.

Governor Blaine's statement Mon-
day morning, while general, charges
it is understood to indicate, that the
executive will in the course of the
proceeding undertake to show that
large industrial institutions in Rhine-
lander which have had labor diffi-
culties during the summer were using
highly questionable tactics to effect
control of county officials and even
the executive himself.

Gov. Blaine adjourned the hearing
until Tuesday, when he will announce
whether or not he will accept Sheriff
Rodd's answer to the complaint. The
answer was received by the governor
three days after the date set for its
acceptance.

The governor, in case he accepts,
will set a new date for the resump-
tion of the hearing.

WORLD COURT WILL AID PLAN TO LIMIT ARMS

Universally Approved Investi-
gation Plan Would Help
to Avert Wars

By William Jennings Bryan
(Copyright 1921 by United Press)

Washington.—A spirit of hope per-
vades the capital.

Those who doubted while they
waited for the delegates to assemble,
now feel quite sure that, so far as
fleets are concerned, the question is
practically settled.

They argue that this government
has, in all probability, already sounded
the governments of Great Britain
and Japan and knows that they will,
in due time, announce their accept-
ance of the plan of scrapping more
than half of all the battleships afloat
and will suspend building new ones
for ten years.

They go farther; they argue that no
government can reject the American
offer, without being overthrown by
the people at home. Everywhere the
world is weary of war and oppressed
by the taxation imposed by war.

The debts of the world are more
than six times as great as they were
when the first gun was fired. All the
people, would mass behind a protest,
if any government stood in the way
of this long step toward disarmament.

The conference will find that disar-
mament will be greatly aided by an
international tribunal for the settle-
ment of disputes. Heretofore, war has
been the only means provided for the
arbitration of international questions.

Fortunately, the conference will
have at hand an immediately avail-
able plan thoroughly understood and
universally approved, namely: The
plan which provides for the investiga-
tion of all disputes before resort to
war.

OPEN NEW BRIDGE AT HORTONVILLE IN ABOUT 10 DAYS

Brusewitz Explains Poor Detour While Bridge Was Being Built

Construction of the new corner bridge over Black Otter creek in the village of Hortonville has been completed and the structure will be open to traffic in about a week or ten days, according to an announcement by A. C. Brusewitz, county highway commissioner.

The new bridge supersedes an old stone bridge which was one of the oldest in the county. The cost will exceed \$3,000. Henry Sprister of Appleton was the contractor who did the work.

While the new bridge was under construction, some complaints were made as to the condition of the detour around it. The official detour designated by the highway office was properly marked but because it was two miles long it was seldom used.

For the convenience of its business, the intercounty bus line built a temporary wooden bridge not far from the one under construction. A sharp curve was made around the corner of the brewery and then down over the bridge. Because it was so much shorter, this detour came to be used by the public but many motorists declared it unsafe and asked why it was not in better condition.

SLIPPERY STREETS CAUSE ACCIDENTS

Pavements made glassy with ice caused several minor automobile accidents on Sunday.

An auto driven by Henry Somer of Oshkosh skidded on Lake street and hit the curb. One of the rear wheels was broken off. The same time later, M. F. White of Winneconne had the same mishap.

A collision occurred at Drew and Washington streets by machines driven by Mike McCarty of Appleton route 3 and Ray DeCoster of 818 Meade street. Broken fenders and running boards and a ripped tire were the damages.

CARRIER FORCE JONAH IN ANOTHER ACCIDENT

The Jonah of the Mail Carrier force has met with another accident. When John Freude, who has the reputation of having met with more accidents than any other mail carrier on the force was driving north on Route 1, Sunday noon, he missed his road and turning in at the A. J. Tilmann driveway, he drove over an embankment. The car turned over three times and Mr. Freude crawled out from under it unhurt. The car, too, a Ford, was practically undamaged and when it was set upright, Mr. Freude drove off in it, running on its own power.

Yell "Heard Around The World" Greets Basing's Dash Thru Ripon's Line

Lawrentions and Towns People
Go Wild As Winning Score Is
Made—Gloom Settles on
Ripon Stands Across the
Field.

Like a flash, the touchdown by which Basing "brought home the bacon" for Lawrence in the Lawrence-Ripon game, transformed the Lawrence crowd into a mob of yelling and cheering spectators, wild with joy. And the same touchdown left the Riponites silent, breathless, after being almost sure for nearly an hour that Ripon would win that game.

Unconscious the Lawrenceites gave vent to their feelings which had been kept to highest point during the entire game, since Ripon made its only score early. When that ball, which gave the opponent a score of 3 went between the goal posts it seemed to hit every Lawrenceite on that end of the field right between the eyes.

Tense with excitement and blue with cold, the crowd stood on its toes figuratively during the entire time of play until that touchdown and then joy knew no bounds.

Gray haired men of the vintage of '98 from Lawrence grabbed unsuspecting onlookers and hugged them within an inch of their lives. Still coeds beat an unnoted but still forceful tattoo on the backs of any mere man who happened to be near.

Shrill soprano shrieks mingling with deep bass guffaws made a thunderous din which could be heard or mutes, it seemed as each one in the crowd jumped up and down, waving his hands in the air and whooping for all that was in him, the team rushed gaily about the field thumping each other on the back and shaking each other's hands with the old fashioned town pump movement. Once or twice it looked suspiciously as though the great strong fighters snatched each other heartily on the cheek.

Great Gobs of Gloom
And on the Ripon side of the field was silence, silence so heavy that it hurt, so penetrating that it seeped through the great enjoyment of the Lawrenceites. Where all had been expectancy, hopes were now dashed to the ground. But with the word that there was still nearly two minutes to play, the Ripon crowd overcame the shock, swallowed its disappointment and backed its team to the end, each spectator believing in his heart that Ripon must win and that many things could happen in two minutes.

With the reopening of play, the Lawrence rooters began the longest two minutes in the history of the college. Each Lawrenceite, too, recognized Ripon as a mighty foe and knew as well as Ripon that much could happen in two minutes. Two tant to move, or too excited to stand still, according to temperament, the crowd watched eagerly, now confident that the Lawrence score was safe, now in anguish lest one of the Ripon passes would succeed. Even the ever present group which leaves every game before its finish was reluctant to move for fear of missing a trick play or an unexpected streak of luck.

How They Kept Warm
And the crowd itself was a motley one composed mostly of seemingly "fat ladies." And comparatively thin shivering men. When a girl started to relate after the game all the clothes she had worn to keep from freezing you thought she was trying to name all the articles in a department store or else you halted that return of the good old days when women dressed sensibly. Wool socks, heavy undies, two coats, galches, wool mittens, furs, muffs, blankets

and what not were the equipment of the fair sex.

One fresh with a healthy appetite and no sense of the fitness of things ate an ice cold juicy apple with much audible enjoyment in the midst of a group of girls who imagined themselves three degrees colder for the experience. Many Lawrenceites rushed to Sage and Ormsby dominos immediately after the game where hot chocolate was being served.

Too happy to demonstrate its spirit in much more than a contented sigh

INTEREST GROWS IN LECTURE ON JUNIOR SCHOOLS

Many Women are Expected at
Chamber of Commerce
Forum Thursday Night

Reservations for the second meeting of the member's council of Appleton Chamber of Commerce which will be held Thursday night are coming in steadily and this is taken as an indication that there is much public interest in hearing the views of John Silvernale, city school superintendent of Menominee, on the junior high school problem which is now before Appleton.

A number of women have asked for reservations and the chamber of commerce makes it clear that women who are interested in the affairs of public education in the city are heartily invited to attend.

Because so many people neglected to send in their cards for reservations for the previous meeting and banquet until the last minute, it was decided not to grant requests for reservations unless they were made more than 48 hours before the time of the meeting. Those who wish to hear Mr. Silvernale are asked to apply for reservations at once.

It is the desire of the committee that all who attend the meeting will feel free to ask questions on the topic and discuss all angles of the matter. After Mr. Silvernale presents his subject the floor will be open for discussion.

Hard Time To Get Rid Of Old "Ripon Hack"

Lawrence beat Ripon but Oscar Kuntz still has a "white elephant" on his hands.

The white elephant is an old antiquated hack which he has been trying to get rid of for some time. He bought it in Ripon 18 years ago at a cost of \$300. Last week he told the college rooters that if Lawrence would win Saturday's game he would donate the old hack for the bonfire.

Wadhams Oil company promised ten gallons of kerosene to help send the hack up in a big blaze. But in their elation over the victory, Lawrence forgot the proffer and neither the hack nor the kerosene were called for. The old hack will be returned to its corner in the shed.

**MISS BERNHARDT WINS
MILK SELLING PRIZE**
Miss Ruth Bernhardt won first prize of \$5 in a canned milk selling contest conducted in 15 stores in this city Saturday by a representative of the Libby MacNeil and Libby Milk Co. of Chicago. Miss Murner Wickert won second prize and Miss Helen Doughty won third prize. Eighteen girls from the domestic science department of Appleton high school entered the contest.

The distinction of winning all three prizes goes to stores on West College. Miss Bernhardt was stationed at the W. C. Flah grocery. Miss Wickert was at the P. Stoffel meat market and Miss Doughty worked at Schaefer Brothers store. The winner sold 612 cans of evaporated milk during the day and Miss Wickert was close second with a sale of 603 cans. Three hundred and one cans of milk were sold at Schaefer's. Each of the girls was given a salary for her work in addition to the prize.

Mrs. Taylor's Sickness Ended
by Lydia E. Pinkham's
Vegetable Compound

Roxbury, Mass.—"I suffered continually with backache and was often despondent, had dizzy spells and at my monthly periods it was almost impossible to keep around at my work. Since my last baby came two years ago my back has been worse and no position I could get in would relieve it, and doctor's medicine did not help me. A friend recommended Lydia E. Pinkham's Vegetable Compound and I have found great relief since using it. I keep house and have the care of five children and I am very thankful I have found Lydia E. Pinkham's Vegetable Compound such a help. I recommend it to any woman suffering as I was before I used it."—Mrs. MAUDE E. TAYLOR, 5 St. James Place, Roxbury, Mass.

Backache is one of the most common symptoms of a displacement or derangement of the female system. No woman should make the mistake of trying to overcome it by heroic endurance, but profit by Mrs. Taylor's experience and try Lydia E. Pinkham's Vegetable Compound.

500 OLD GRADS RECALL OLD DAYS AT BIG BANQUET

Team is Complimented for Its
Victory Over Ripon—Old-
Timers Speak

Lawrentians, numbering more than 500 and representing classes from 1865 to 1921, gathered in Armory G Saturday evening to celebrate the Ripon game at the second annual homecoming banquet. Many who failed to make reservations in advance had to be turned away and tickets which had been purchased and could not be used were at a premium.

"Your own Alma Mater, counting only the college of liberal arts, is one of the largest colleges in the country," said Dr. J. H. Farley in his speech on "Now and Then" in the program of four minute speeches which followed the banquet. "Records of this year show that it has a greater enrollment than any of the institutions which are still in the college class the country over."

Dr. Farley who was the first speaker introduced by A. A. Trever, the toastmaster told of the old times when the Lawrence game was considered a practice game by Beloit at that time twice the size of the local college. Lawrence has beaten Beloit for 18 years now and is twice the size of the southern school. He commended Lawrence for its new relations in the midwest conference which included the two strongest colleges in each of the five midwest states.

Team Spoke for Itself

Captain "Bill" Smith spoke for the team whom he said had spoken for themselves on the field. "Miss Margaret Luce spoke for the team," he said, "and she spoke for the team. Lawrence would always shine in all lines as it was shining athletically on Saturday. Coach H. D. McChesney also spoke taking his opportunity to express his appreciation for the co-operation with which Appleton and Lawrence alumni have responded to the needs of the team. He thanked "Cub" Buck, E. P. Ashe who handled the freshman team, Prof. Arthur Trezise who took care of the injured men on the field, Dr. D. J. O'Connor who had taken care of the boys when they were laid up.

"Much has been said about the team, but not half enough," said Col. P. J. Schaeffer, the speaker for the evening. "The team played a great game. I do not know that I ever saw a better Ripon team. The men are good sports, they are speedy, they show splendid team training and good team work. In a way I am sorry to have Lawrence join the new midwest conference because it will deprive us of the old battle cry, 'Rip Up Ripon'."

MAY ADJOURN BOARD TO HUNT FOR DEER

Outagamie-co. board will meet in the courthouse at 2 o'clock Tuesday afternoon for its annual session. It is likely that preliminary matters occupying only a short time will be the business of the first session. It is predicted that the board will be asked to adjourn one week or until the close of the deer hunting season which opened Sunday and will close Nov. 22. A number of the board members are said to be anxious to avail themselves of the deer hunting privileges but others are in favor of proceeding with business at once so that the session will not be prolonged. The Outagamie board is said to have adjourned until after the deer hunting season.

Fireplace Meeting

More than 50 boys attended the "fireplace" meeting of the boys department of the Y. M. C. A. in the recreation rooms of the Y. M. C. A. at 3 o'clock Sunday afternoon. Leonard Hendrickson, Lawrence, and Lee student, gave a talk on "The points that enter into a successful life." After the talk the boys gathered around the fireplace and roasted marshmallows.

Roof Catches Fire

Firemen were called to the Edward Murphy home at 458 Cherry-st., Saturday night when spark from the chimney set fire to the roof. The blaze was extinguished by chemicals without difficulty. Very little damage was done.

HERMAN WINS OVER
MOORE IN 15 ROUNDS

New York—Pete Herman, New Orleans, former world's bantamweight boxing champion, received the judge's decision over Roy Moore of St. Paul in a 15 round bout Saturday night.

It was Herman's first appearance in the ring since he lost his title to Johnny Buff last September. Herman held a safe lead in every round but the eighth, in which Moore had a shade and the ninth, which was even. The former champion's infighting was effective, with Moore taking severe punishment from fast right and left hand body blows.

NUMBER OF SALES TO BE DISCUSSED

Whether the Outagamie County Holstein Breeders association will hold one or more purebred bull sales in the county this fall is to be decided at the annual meeting of the association in the city hall here at 1 o'clock Thursday afternoon.

A number of breeders favor the idea, because Winnelago-co., in conducting four such sales in different parts of the county, found a ready demand and aided farmers in procuring purebred sires for the first time at prices they could afford. It had been found from the ready sale of bulls at general sales that there was a demand for them.

It is the plan to hold two sales in this county, the first being away a purchased bull at each at Winnelago county. This matter will be up for discussion so all the breeders can give their views.

DEATHS

CHARLES S. LITTLE

Charles S. Little, for more than 30 years a leading druggist of this city, died Sunday noon, November 13 as the result of a stroke of paralysis. Funeral services will be held at 10 o'clock Tuesday morning from the Memorial Presbyterian church with the Rev. John McCoy in charge. Interment will be made at Fond du Lac. Services at the grave will be conducted by the Masonic order of that city.

Mr. Little is survived by his wife, Mrs. Inez Gillet, one son, Bonnell, and a granddaughter, Elizabeth June Little, all of this city, and two brothers, Joseph of Minneapolis, Minn., and John of Fond du Lac.

Mr. Little was born in Jersey City, N. J., March 4, 1853, and when a boy of ten years of age moved to Wisconsin with his parents, settling in Fond du Lac where he grew to manhood. Following his graduation from the New York college of pharmacy he moved to this city. A 1578 engaging in the drug business in a store on College-ave. He was at first associated with J. Austin Hawes but later conducted a drug store under his own name at the corner of College-ave. and Oneida-st., until he was bought out by Schlicht Brothers several years ago.

In 1889 he was married to Miss Inez Gillet of Fond du Lac, who was a classmate in the Fond du Lac high school.

Mr. Little was a devoted member of the Memorial Presbyterian church of which he was the senior ruling elder, holding that position for nearly forty years. For the last 20 years he has also been its clerk of session and has repeatedly been honored by being chosen to represent his Presbytery in the General Assembly. He was a member of the Masonic order.

The body of Mr. Little will rest in state in Memorial Presbyterian church from 8:30 until 10 o'clock Tuesday morning.

JOHN WOLF

John Wolf, 72, died Sunday morning at his home, 1108 Gilmore-st. He is survived by his widow, four daughters, Mrs. Mary Knepp, Le Mont, Pa.; Mrs. Matt Becker, Menasha; the Misses Mathilda and Clara Wolf, Appleton; three sons, Henry, Two Rivers; Louis and Leonard, Appleton; one sister, Mrs. Julius Wenger, Greenleaf; four brothers, Andrew, Matson; George, Appleton; Leonard, Oshkosh; Johnnie, Milwaukee, and 15 grandchildren.

Mr. Wolf was born in Europe April 26, 1849, and came to America 51 years ago. He lived in Maryland three years and then came to Wisconsin and has lived in Appleton for the last 22 years.

Funeral services will be held at 1:30 Wednesday afternoon from the late home and at 2 o'clock from the Olive Lutheran church, with the Rev. R. E. Ziesemer in charge. Burial will be in Riverside cemetery.

MRS. MARGARET BROWN

Adventures of the Twins

Oliver Roberts Barton

The Fall Storm
Nancy and Nick left the house of the Nuisance Fairies, from which they had all escaped, and sailed down to the earth with the help of their Green Shoes.
They hurried to the spot where Sprinkle-Blow was trying to make peace with the quarreling fairies. Howling Thunder and Jumpy Lightning had made short work of Sizzly. Dry Weather, and sent him skidding. Jumping up to the sky, they rolled the barrel marked "Regular Pourdowns" onto a big black cloud and took off the top. After that, with all their racket and flashing and torrents of rain, Old Sizzly didn't dare to come back. Old Man Flood was tickled to pieces and tore off to the brook. Jack Frost was off to the woods and bled his time. Now that he was safely down to earth again, he wasn't going to let any meddling fairyman and two children interfere with him any longer. He laughed and laughed and laughed.
"Goodness!" exclaimed Sprinkle-Blow. "I guess I can't finish my vacation after all, kiddies. What happened in the sky? How did all these Nuisance Fairies get loose?" He looked as forlorn as anything standing there under his dripping umbrella with his shoes soaking wet, and his mustache as droopy as a wet rooster's tail.
The Twins told him that it was all their fault—how they had left

the key in the door, and all the rest of it.
Suddenly Sprinkle-Blow began to smile. Then he laughed out loud and slapped his knee. "Well, well, well!" he cried. "Well, well, well!" I forgot all about it. It was time, anyway!"
"Time for what?" asked the Twins curiously.
"Time for the regular fall storm. Twice a year I have to let all the Nuisance Fairies out together, once in the spring and once in the fall."

SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Luster

At Once
Gray hair, however handsome, denotes advancing age. We all know the advantages of a beautiful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray, and looks streaked, just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyle's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears after another application or two its natural color is restored, and it becomes thick, glossy, and lustrous, and you appear years younger. adv.

"Where do we go from here, boys?" sang this fellow in the language of the Benquet Igrootes as they hit the trail to Bontoe in the Philippines. What cared he for a burden of 200 pounds and a broiling sun?

Your Thanksgiving Dinner

If turkey is a bit too steep in price for your pocketbook this year try a crown of pork. This whole menu can be worked out for six persons at a very moderate cost.

KITCHEN
Thanks giving dinner without turkey: Tomato bouillon; toasted bread sticks; crown of pork; stuffed celery; blushing apples; grilled sweet potatoes; creamed onions; grabo fruit salad; cheese cups; mock mince pie; ginger water ice; black coffee; apples; nuts; grapes.

Crown of Pork
Instead of buying a rib roast and having the butcher crack it and make it into a crown, make it yourself and save a little money.

Buy a strip of spare ribs. Have the butcher cut them evenly across the ribs. Then sew the two pieces together, making a circle. A strip of six ribs will cut to make twelve short ribs and serve six persons.

Two pounds lean pork, 1 pint oysters, 2 cups bread crumbs, 1 1/2 teaspoons salt, 1/2 teaspoon pepper, 2 eggs, water to moisten.

Chop meat and mix with bread crumbs and oysters. Add salt and pepper and eggs slightly beaten. Mix thoroughly and if necessary add water to make moist enough to hold together. Fill the crown with this mixture. Put in roaster, dredge with flour, salt and pepper and bake in a slow oven for two and a half hours.

Roast with hot water every 15 minutes. When done, remove to platter, dress the ends of the bones with paper frills and serve.

Blushing Apples
Six tart apples, 1/4 pound tiny red cinnamon drops, 1 tablespoon lemon juice, 1/2 cup sugar, 2 teaspoons butter, 1 cup boiling water.

Pare apples, leaving a band of skin through the center. Remove core. Put in a shallow pan and fill cavities with butter and sugar. Add water and lemon juice. Sprinkle the candies over the apples and bake in a slow oven. Baste often with the water in the pan. Remove from pan when tender but not broken and fill the cavities with the jelly in the pan. Chill and serve.

Stuffed Celery
Celery, 1 cream cheese, cream, salt and pepper, paprika, 1/2 cup finely

chopped nuts, 4 tablespoons minced green pepper.
Wash and dry celery. Work a cream cheese smooth with enough cream to make quite moist. Add salt and pepper and enough paprika to color the mixture. Add nuts and pepper and work smooth. Fill celery stalks with mixture and put in a cold place to chill.

Mock Mince Pie
One cup raisins, 1 cup cranberries, 1 orange, 2 tablespoons butter, 1 cup sugar, 1 egg, 4 tablespoons cracker crumbs, 1/2 teaspoon salt, 1/2 teaspoon cinnamon, 1/2 teaspoon cloves.

Cook raisins and cranberries in just enough water to prevent burning for 20 minutes. Add juice and shredded rind of orange. Add butter and sugar. Stir in egg well beaten. Add crumbs and seasonings. Bake between two crusts.

Ginger Water Ice
Four ounces preserved ginger, 2 cups water, 2 cups sugar, 1 egg white, 2 lemons, 1 orange, 4 lumps sugar, 3 tablespoons cold water.

Pound ginger, adding sirup to make quite moist. Rub this through a coarse sieve. Rub the lump sugar on the orange rind. Add this sugar to the ginger. Boil the water and sugar until a soft ball is formed when tried in cold water.

Add ginger mixture and three tablespoons of cold water to the sirup. Let boil up once. Turn into a mold, chill and freeze. When about half-frozen add the white of the egg beaten till stiff and dry.

Miss Maggie Maloney, Mrs. Thomas McLaughlin of Milwaukee, were visiting with their sister, Mrs. Mike Garvey over Sunday.

WE OWN AND OFFER A PART OF

An Excellent First Mortgage Bond

Yielding 8.25% Interest

Farsighted investors have practically absorbed the existing supply of high grade, first mortgage bonds yielding 8% or over, and in all probability it will be many years and possibly generations before these rates will again be available.

We offer

Charcoal Iron Company of America

10 Year First (closed) Mortgage 8% Gold Bonds To Yield 8.25%

This company is the largest producer of charcoal iron in the United States, and also ranks first in the production of wood alcohol and acetate of lime, from which a considerable revenue is derived.

The company's assets are valued at more than \$15,000,000 or over 3 1/4 times the total issue of First Mortgage bonds (\$4,000,000).

For a period of five years ending December 31, 1920, the company's earnings have averaged over four times the maximum annual interest requirements of the First Mortgage Bonds.

Current assets are over \$3,000,000 and exceed current liabilities in a ratio of 17 to 1.

We recommend these bonds as a safe and profitable investment.

FEWER DEER BUT HUNTERS ARE MANY

Number of State Licenses Issued is Double Total for Year 1920

Madison.—Despite the fact that reports from the northern part of the state indicate a considerable decrease in the number of deer, the sale of hunting permits and deer tags this year exceeds by far any previous record.

Up to the time of the opening of the deer season at 12 o'clock midnight, on Saturday there had already been sold \$20,000 worth of hunting licenses more than had been sold during the entire season last year.

Many Out of State Tags
The conservation commission has sent out 150,000 licenses and is in receipt of calls for 5,000 additional. Fifty-five thousand deer tags have been distributed and orders for 4,000 additional have been received.

One hundred and two out of state licenses have been sold, which is more than double the number sold last year, which was a high water mark.

Reduction Due to Clearing
The department declares that it has paid into the treasury \$225,000 up to Nov. 1 which is \$60,000 more than was taken in during all last year, and there still seven months of this fiscal year yet to go.

The reduction of deer is attributed by members of the department to the clearing up of thousands of acres of northern forest land. Last year there was over 400,000 acres of land cleared and settled.

HARVEST BIGGEST CROP OF SWEET POTATOES

Memphis, Tenn.—The south is harvesting the largest sweet potato crop in its history, due to increase in acreage.

Total production of sweet potatoes in the United States this year will be approximately 14,000,000 bushels. More than one-fifth of the crop, is being raised in Arkansas, Mississippi and Tennessee.

The average production per acre this year will be about 100 bushels, compared with 107 bushels last year. The southern states produce sweet potatoes probably will realize an average value of \$12.55 per acre from this year's crop.

Such a price means one dollar a bushel. Thousands of bushels have been placed in storage.

BEAUTY EXPERT

Prof. Frederick Starr, of the University of Chicago, didn't make the bald statement that American women aren't beautiful, he says. There's a compliment in what he did say. "The good nature of Americans makes ordinarily homely women good looking." The professor is shown in a Japanese costume he wore at a recent ball in Chicago.

CUT IN PRICE OF BREAD COMING SOON BAKERS HERE SAY

Reduction in Cost of Flour Results in Cut in Bread Price in Many Cities

Present indications are that Appleton bakers will fall in line with other bakeries in the state and reduce the price of bread. This decrease in price movement was started several weeks ago by Milwaukee bakers and later spread to other cities in the state. Prices were reduced from 2 to 3 cents per loaf in neighboring cities. Noticeable decreases in the price of wheat and flour prompted Wisconsin bakers to take this action.

One Appleton baker declared that prices of bread probably would drop within the next few weeks and there would be a noticeable decrease by Dec. 1.

Other bakers said no decrease in bread price would be made for some time.

"The cost of fuel, electricity, power and labor is just as high now as it was three and four months ago," said Simon Van Corps, 1012 College-ave. "I do not expect a decrease in the wholesale price of bread for some time. Bread has decreased from 4 to 3 cents a loaf in local markets in the last five months while the cost of production remains the same, if not a little higher."

"We have reduced our prices 1 and 2 cents a loaf," said Joseph Doerfler of the Doerfler bakery, 514 State-st.

DR. ALBERT E. RECTOR
Announces the removal of his offices to 812 College Avenue, (over new Kresge stores) Appleton, Wis.

"I can see no further reductions for the time being."

Anton Stingle of the Stingle bakery, 268 College-ave. refused to comment on the bread question other than to state that a reduction in price would probably be made within the next few weeks. "It will be necessary to call all of the bakers in Appleton to a meeting in order to make a reduction in the price," said Mr. Stingle. "I have appealed to them several times but to no avail."

Several Appleton bakers were out of their places of business when the reporter called and did not have the opportunity to voice their opinions in the matter.

NEW YORK FROWNS ON CANAL PROJECT

Gotham Boosters Declare Lakes to Ocean Project is Engineering Fallacy

Although public opinion in practically every state in the country now is unanimous in favoring the establishment of a deep waterway from the Great Lakes to the sea, the New York State Waterways association in a recent meeting at Albany condemned the project according to an article in a commercial magazine received by Secretary Hugh G. Corbett of Appleton Chamber of commerce.

It was the opinion of members of the association, the article states, that the proposed St. Lawrence ship canal is possible but is an engineering fallacy and should not be attempted by sound-minded people.

"The association is of the opinion that even if such a canal were built, many boats could not operate on it at all and those that could, would be able to use it only three months of the year because of northern climatic conditions."

It was apparent that the association favored improvement of the present Erie canal for accommodation of more and larger barges. This would necessitate the shipment and reshipment of foreign and domestic goods at the New York port in the future just as in the past.

ASKS POLICE AID TO PROTECT MAILS

Train Leaving Here at 10:27 in Morning is Safest to Valuables

Driven to the adoption of stringent measures to protect the United States mails from robbers, Postmaster General William R. Hayes appealed Thursday to postmasters throughout the country to enlist the aid of citizens in keeping the mails immune from the ravages of bandits.

A copy of the appeal has been received by Postmaster Gustave Keller from the first assistant postmaster general, the postoffice inspector of

Gib. Horst Players at Al. Giesen's, Stephenville, Nov. 16th. Bus leaves Pettibone's at 8 o'clock. Hall will be heated for dance.

this district and from the chief clerk of the railway mail service.

Local postoffice employees have been armed and ordered to shoot to kill if a robbery is threatened. Orders from the department point out that there is little use of carrying arms for protection unless the employees know how and have the "nerve" to use them.

Complying with the orders of the department heads, Mr. Keller conferred with Chief of Police George T. Price for the purpose of establishing closer cooperation between the postoffice and the police for the protection of mail.

"Citizens can assist in mail protection," Mr. Keller said, "by seeing that valuable parcels which they register are brought to the office to go on the proper train. The safest train to dispatch valuables to either Milwaukee or Chicago leaves at 10:27 in the morning. Mail for this train closes at 10 o'clock but it should be mailed as soon after 9 o'clock as possible. This train leaves in daylight and arrives in Chicago in daylight so that there is less danger of a robbery."

TEN ARE RESCUED WHEN FIRE DESTROYS HOME

By United Press Leased Wire
Milwaukee—Ten persons, four of them small children, had a narrow escape from death here early Saturday when a fire destroyed the home of Andrew Uhl. The children were carried from the upstairs bedroom to safety through the smoke and flames. The cause of the fire, which started in the basement, could not be established.

TINSELED CARDS GO TO FURNACE

Postal Authorities Again Call Attention to Mailing Regulations

If you mail a tinselled or embossed postal card to a friend without enclosing it in a sealed envelope bearing a 2 cent stamp and later find out that your friend never received it, you will know it has been burned in the furnace at the postoffice.

This was the statement made Monday from the Appleton postoffice. From time to time this variety of card is received and according to postal regulations enacted several years ago they must be destroyed. Unless such highly decorated cards are enclosed in a sealed envelope and mailed as first class matter they are denied the privilege of the mails.

Tinselled and embossed birthday cards are received regularly at the postoffice. The number is not great at any one time but they come in continuously and in conformity with the regulations they are destroyed.

It is believed that merchants sell these cards in most cases without telling the customer of postal regulations and instead of selling them in envelopes just as they must be mailed, they are sold open like plain cards. Postal authorities have repeatedly

NEENAH MAY LOSE CHEESE FACTORY

Whether Neenah will be the location for a big cheese factory to be built by the Wisconsin Cheese Federation in the near future will be decided within the next two weeks, according to reports.

At this time there is said to be a good prospect of building the factory at Green Bay instead. The federation appears anxious that the factory should be built somewhere in Winnebago-co., but so far farmers in that neighborhood have shown little interest in the proposition.

It was in the hope that farmers there would welcome a cheese factory that it was first planned to build in Neenah. Now it may be that Green Bay will present greater advantages which will induce the federation to locate its factory there.

requested dealers to inform customers of postal regulations affecting postal cards. They point out that it is wasteful for the postoffice to be forced to destroy costly cards just because they do not conform to a sensible ruling.

WANT "CEMETERY ROAD" AT NEENAH IMPROVED

Attempts are to be made to have the "cemetery road" between Neenah and Oshkosh permanently improved next season and the Winnebago-co. board at its coming session will be asked to place it upon the 1922 improvement program.

The "cemetery road" is known to motorists in this country as the detour on highway 15 between Neenah and Oshkosh which was in use this summer while the main highway was closed for permanent improvement.

The Neenah council has already asked the county supervisors to take definite action for the improvement of this stretch of road.

DRUNK IS CHASED OFF TRAIN AND PAYS FINE

After he had been ejected from a train at Appleton Junction Thursday night, M. S. Calman of New London was taken into custody by police. He was held in jail until Saturday morning and was taken into municipal court on a charge of drunkenness. He paid a fine and costs of \$5.20.

Donald Frawley, son of Mrs. Anna Frawley, 517 Oak-st., and Clarence Kempfert, son of Mrs. A. Kempfert, 667 Appleton-st., returned Friday from Milwaukee where they have been attending Marquette University. To attend the Lawrence-Kipon football game and homecoming festivities.

CHINA IS BIGGEST PROBLEM IN WORLD BIG AUDIENCE TOLD

Peng Chun Chang, Noted Orator, Tells Forum of His Country's Needs

In his address on the "Problems of the Pacific" before the People's Forum at Lawrence Memorial Chapel Sunday night, Peng Chun Chang, noted Chinese dramatist, educator, and lecturer, spoke of China as a problem for the Chinese and China as a world problem. He was closely followed by an audience that filled the main floor.

Among the reasons advanced by the speaker why China is important in the present day world is because of the need of trade, the need of exchange of goods, the need of raw material, and because of her vast resources. One province of China, he

said, has enough coal to supply the world at the present rate of consumption for one thousand years. And then there are deposits of iron and copper and other metals.

Largest Market
China forms the largest single market of the world's manufactured goods today. It is in need of modern industries to manufacture on a large scale. In this day of unemployment China feels the need of the markets of the world.

China is in need of organization and it is time for readjustment, the speaker said.

Western nations began entering China at the beginning of the nineteenth century. The events leading since that time up to the establishment of the new republic in 1911 were recounted and the speaker said since the establishment of the new form of government there has been much doubt in the minds of people as to whether it would last, whether the Chinese were fit for this new form.

"When you look at the problem historically you will see that it took the American colonies from 20 to 25 years to attain any degree of a union," Mr. Chang said. "It took the French government nearly 70 years. Now, in comparison, you should give China with its 4,000,000 square miles at least 300 years. We are not going to ask you for 300 years. That would be too long. We will be satisfied if you leave us alone for 30 years."

China Not Divided
"From a political point of view China is not a divided nation so far as the people are concerned. There is no such thing as the north and the south. This condition exists only in the minds of politicians. From the point of education the north and the south have never been divided. Even today the delegates from north and the delegates from the south meet in conference."

One of the great needs of China is the development of public opinion. The speaker touched on the needs of schools and the important places that are being filled by graduates who are looked upon favorably by public leaders.

The attitude of foreign powers toward China and the foothold gained by some of them was reviewed down to the time the United States became interested and advocated an open door policy. The European powers were planning to partition China when the United States in 1900 came in as a new factor and world power and was ready to make use of her markets and some of her raw material.

In speaking of the disarmament conference now being held at Washington, Peng Chun Chang said the United States is to be congratulated for having such wise leaders as President Harding and Secretary of State Hughes.

PROTECT TIRE SCHOOL CHILD'S HEALTH

This is one of the most vital questions that the mother faces in all the course of her life.

If her children are not healthy they cannot succeed in their pursuit of an education—cannot grow into normal maturity.

Our Washington Information Bureau, realizing this, asked the American School Hygiene Association to make a bulletin that would give the mother the best possible advice about keeping her children physically fit.

The booklet is now ready. It contains 48 pages, with charts, tables, and an index so that each subject may be instantly located. It is undoubtedly the most practical study ever made of the subject. IT IS FREE TO ALL.

In the interest of the well-being of the children, send for it.

THE BIG FIVE AT THE WASHINGTON DISARMAMENT CONFERENCE

CHARLES EVANS HUGHES, premier of the state, is most famous as an expert in commercial law and jurisprudence. He was born 53 years ago at Glens Falls, N. Y., and was educated at Colgate, Brown and Columbia universities. His name is first became known nationally in 1905, when he proved the consolidated gas companies of New York at a monopoly. In 1906 he was elected governor of New York and was re-elected in 1910. He was elected to the Supreme court before his term expired. Hughes resigned in 1916 to accept the Republican nomination for president, but was defeated by President Wilson. With the inauguration of President Harding, Hughes became secretary of state. He still clings to one ambition, that of becoming chief justice of the Supreme court.

ARISTIDE BRIAND, premier of France, comes here as leader of France's delegation with the full support and confidence of his people. Like Lloyd George, he is of Celtic origin, a native of Brittany. He is of medium stature, with bushy, iron-gray hair, modest and shy of publicity. Briand is 59 years of age. At 30 he was apparently a failure. At law, but in the last quarter century he has four times filled ministerial positions and has headed the cabinet six times. As minister of public instruction in 1906 he handled the law by which the church and state were finally separated. He first became premier in 1909. In January of this year he formed his sixth ministry with the promise of obtaining full reparation from Germany, according to the terms of the peace treaty.

PRINCE IYESATO TOKUGAWA heads the Japanese delegation at the disarmament conference. Due to the importance of the Pacific question at this time, international experts see in him the man on whom will depend the success of the meeting in Washington. He was born in 1862 at Tokyo, and at the age of five was adopted as heir by the last of the Tokugawa Shoguns, a year after the shogunate had surrendered its regency to the imperial court. Before he became prince, he had gained an education in England which gave him a broad insight into international affairs. This view was broadened still more when the prince toured the United States and Europe in 1910. At that time he had reached his seventh year as president of the Japanese house of peers. He still holds that office.

VITTORIO ROLANDI RICCI, Italian ambassador to the United States and leading Italian representative at the disarmament conference, is one of the best known lawyers in his country. He is an expert in commercial, maritime and mercantile law. Although he has never used it, his fortune is estimated at 10,000,000 lire (\$2,000,000) which he accumulated from a modest beginning. Ricci did not participate in politics until 1912, when Premier Giolitti nominated him senator. As such he drafted bills on mercantile marine and on state ownership of water power. He represented Italy at the famous international conference on commercial affairs. Now, at the age of 61, he has abandoned his profession entirely for politics.

DAVID LLOYD GEORGE, premier of Great Britain, is expected to be the dominant personality at the disarmament conference. Born 53 years ago of Welsh stock, he gained early recognition by championing the right of the common people. He first became nationally famous when he opposed the Boer War. From the time he was elected to Parliament in 1890 he carried on his fight for reforms. He was chancellor of the exchequer from 1905 to 1915, then minister of munitions until 1915, when he was named secretary of state for war in the coalition cabinet. That year he became prime minister. He was a dominant figure at the allied peace conference in Paris. Since then he has been taken up with problems of securing peace in Ireland and relieving the unemployment situation.

WEST HIT HARD BY SLUMP IN BUSINESS

Nic Dohr Gives His Impressions of Conditions on Pacific Seaboard

"The mountains and ranches with their thousands of cattle and sheep impressed me most," said Nic Dohr, who has returned from a six weeks' business trip to California. He was accompanied by Mrs. Dohr and while he did not divulge the nature of the business that called him west said his trip was a successful one.

Mr. Dohr made stops of from two to ten days at Reno, Nev., Sacramento, San Francisco, Porterville, Los Angeles, San Diego, Calif., Ogden, Utah, and Omaha, Neb. The scenery and fine tourists hotels at Reno, Nev., were a surprise to him and it was there he made his longest visit.

In speaking of business conditions Mr. Dohr said the west has been affected a great deal more by the depression than the middle states. San Francisco, Los Angeles and San Diego were the only cities in which any building was being done and even in those cities idle men lined the streets. Los Angeles and San Diego are getting ready for winter tourists whom they expect will begin to arrive Dec. 1. His experience with hotels was the opposite from what he anticipated and he said he did not find rates exorbitant.

Ranchmen have been hit the hardest of any class of people in the west by the drop in prices and some of them have almost been put out of business. Mr. Dohr said on some of the ranches he saw thousands of cattle and sheep grazing but that they represented a very small investment compared to what they were worth during the war.

Robert Muchow of Des Moines, Ia., was an Appleton visitor Friday. E. J. White, R. S. Scott, and J. C. Scott of Elkhorn, were in Appleton visiting with friends Saturday.

INGROWN TOE NAIL TURNS OUT ITSELF

A noted authority says that a few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and softens the tender, sensitive skin underneath the toe nail, so that it can penetrate the flesh, and the nail turns naturally outward almost overnight. "Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

More European Made Toys On Sale Here This Season

Americans Unable to Compete With Foreigners in Manufacture of Mechanical Toys

More European made toys will be offered for sale in Appleton stores this year than for a long time, according to merchants who are carrying unusually large stocks. While American toys are gaining in popularity and have a big lead in the wooden toy department, they cannot be made cheaply enough to compete with mechanical toys and dolls "made in Europe."

It will not be long, however, before American made toys will displace most of the imported playthings, some dealers believe. Others hold to the opinion that the cheaper labor in Europe makes it virtually impossible to compete with the foreigners in toys that require considerable hand work.

"We would rather fill our stock with American made toys than to purchase the imported types, but the trade calls for the old time foreign labeled amusement devices and we in turn buy according to the demand of our customers," declared one Appleton buyer. "Our stock is split half in half with American and European made toys. All our games, wooden toys and miniature furniture bear the American label while our imported stock is composed of mechanical, iron and other metal toys. Japanese toys are not desirable this season as they are of a very inferior grade."

Prices of toys have decreased from 20 to 40 per cent as compared with last year. As an example, a wooden toy train set that retailed for \$11.50 last fall now sells for \$6. That the most inferior grades of American made toys are far better in appearance, durability and manufacture than the highly reputed European imported toys is the opinion of Eric Galpin, buyer for A. Galpin Sons Hardware company. All of our toy stock is made up of toys made in America. Prices of American and European made toys are practically the same," Mr. Galpin said.

"As yet the American manufacturers have not been able to cope with mechanical and metal toys and dolls made in foreign countries. It seems that the European toy maker can put a better grade of workmanship and finish to his toys," declared H. L. Post of the Pettibone-Peabody company. "We have put in a very extensive stock of toys this fall as this season promises to be one of the best seasons in a number of years. Our stock is composed largely of imported European toys as we think they are far superior to those of American make as to durability, appearance and mechanical makeup. Of course our bulky wooden toys, miniature furniture and all other wooden types of toys are made by American toy makers. A toy that sells for \$1 this year is much more substantial than the same toy sold for the same price last year. There is no call for Japanese made toys this year as they are of an inferior grade."

"Most of the toys in our department are made right here in Appleton," said H. A. Young of the Gloudehans-Gake Co. "We have the largest toy stock we ever had and most of it is American made. There are a few mechanical toys imported from abroad because the American made toys of the same kind cannot be obtained at a price which compares with the foreign product."

FRANCE SENDING BIG ORDERS TO U. S.

New York.—An export boom in building materials is expected to develop soon. France is seeking an American to take full charge of the rebuilding of devastated France. The job has been offered to Henry C. Irons, New York construction man.

This is taken to mean that America will get big orders. The French government is rushing plans to rebuild its devastated regions, and its industrial machine fully equipped, to be ready for the next boom in world trade.

America's foreign trade—measured in tons, bushels and other forms of physical volume—fell off decidedly in September, says the Federal Reserve Board's latest analysis.

Total exports in August were 41 per cent above the 1913 average. This figure fell to 20 per cent in September.

Measured in cash, September merchandise exports were \$225,000,000, a drop from \$604,656,000 in September, 1920. Imports correspondingly declined from \$363,290,000 to \$180,000,000.

United Kingdom now is our best export customer.

Homes for Rabbits

MOTHER!

Your Child's Bowels Need "California Fig Syrup"

Hurry mother! Even a sick child loves the "fruity" taste of "California Fig Syrup" and it never fails to open the bowels. A teaspoonful today may prevent a sick child tomorrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember good cleansing of the little bowels is often all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup. adv.

"Dead Ones" On Way Back To Get New Shot Of Life

Since the government announced it would permit the manufacture of beer for medicinal purposes empty cases of bottles which were shipped into the city filled with soft drinks have been going out of Appleton by the carload. Opposite the passenger depot of the Wisconsin division of the Northwestern road there was a pile of "empties" that towered up nearly as high as the two story residence back of it, but practically all the cases have disappeared within the last two days. They belonged to St. Louis brewery. There has been a general "cleaning up" of "empties" throughout the city and they are being forwarded to their home plants as rapidly as they can be collected.

BIRTH CONTROL IS PEACE SOLUTION

New York.—Limitation of population as a permanent solution of world peace, was advocated at the first American birth control conference here Friday.

Women delegates dispatched a telegram to the arms conference in Washington, urging it to give "thoughtful consideration" to this idea.

The telegram read in part: "If ever recurring wars are to be prevented, the people in each country must be able to live in reasonable comfort within their own borders. This can only be secured by a control of the birth rate. In most countries that control already is being practiced by the well-to-do minority, but the masses are still continuing to multiply their numbers regardless of

their children's prospects in life and regardless of the hideous sufferings that must ensue when rival races are driven to fight with one another for room in which to live."

New Yeast Vitamon Tablets Round Out Face and Figure

With Firm, Healthy Flesh, Increase Energy and Beautify the Complexion—Easy and Economical to Take—Results Quick

Thin, run-down folks who want to quickly get some good firm, solid flesh on their bones, fill out the hollows and sunken cheeks with strong, healthy tissue, and build up increased energy and vitality should try taking a little Mastin's VITAMON with their meals. Mastin's VITAMON is a tiny tablet containing highly concentrated yeast-vitamins as well as the two other still more important vitamins (Fat Soluble A and Water Soluble C). It banishes pimples, boils and skin eruptions as if by magic, strengthens the nerves, builds up the body with firm flesh and tissue and often completely rejuvenates the whole system. Quick, gratifying results. No gas caused. If you are thin, pale, haggard, drawn looking or lack energy and endurance take Mastin's VITAMON—two tablets with every meal. Then weigh and measure yourself each week and continue taking Mastin's VITAMON regularly until you are satisfied with your gain in weight and energy.

IMPORTANT! While the remarkable health-building value of Mastin's VITAMON has been clearly and positively demonstrated in cases of lack of energy, nervous troubles, anemia, indigestion, constipation, skin eruptions, poor complexion and a generally weakened physical and mental condition, it should not be used by anyone who OBJECTS to having their weight increased in normal. Do not accept imitations or substitutes. You can get Mastin's VITAMON tablets at all good druggists.

SHE WOULDN'T BE WITHOUT TANLAC

Detroit Woman Says Her Rheumatism And Indigestion Are Entirely Gone

"All the thanks, praise and gratitude for my present good health belong to Tanlac," said Mrs. Eva Decoteau, 5129 Field Ave., Detroit, Mich.

"When I began taking Tanlac I believe I was right on the verge of a nervous breakdown. My stomach was in such a weak, disordered condition I could hardly retain anything I would eat at times. What I ate at other times caused gas, fluttering of the heart, and such faint feelings and dizzy spells I could hardly stand up. I was subject to fearful headaches and pains in the back of my neck that nearly set me wild. I had rheumatism in my feet and ankles so bad I could scarcely walk at times, and was considerably off in weight."

"I had been in bad health for six years and just tried everything, but nothing helped me until I began taking Tanlac. This medicine helped me right from the start and with my third bottle I began to improve rapidly. My sleep was more restful and my appetite and stomach improved so that my food gave me nourishment. With a few bottles more my aches and pains all disappeared, and my weight increased ten pounds. I am a different woman now from what I was before taking Tanlac and I wouldn't think of being without it."

Tanlac is sold in Appleton by Voigt Drug Co. and by leading druggists everywhere.

A Smile In The News

Neises
I Bear the banging
Of the wagon wheels,
Or the trolley clanging,
While its airbrake squeals;
But I grow quite bitter
And I lose my pluck
At the bird-like twitter
Of a five
ton
truck!

With an Anglo-Saxon
Fortitude, I smile
When a sudden Klaxon
Shrieks in raucous style;
But there's one ear-splitter
Makes me jump and duck—
It's the bird like twitter
Of a five
ton
truck!

It is fear-inspiring
When its voice is heard,
Like the giant thrilling
Of a monster bird.
Though I'm not a quitter
I get panic-struck
At the sharp twit-titter
Of a five
ton
truck!

I can stand the clamor
And the direful din
When the loud air-hammer
Drives the rivets in;
For the city's clamor,
Though it's harsh, maybe,
Doesn't really matter
Very much to me;
But—my nerves go flitter
And I curse my luck
And my two eyes gliter,
And my two eyes gliter,
Seeking stones to chuck
When I hear the twitter
Of a five
ton
truck!

Lawrence students noticed that a meat shop on the avenue was displaying Lawrence pennants on two halves of beef hung in the windows. "Wonder if that guy means that we're the baby beef?" one student said.
That's it. A good intention 'is frequently misconstrued. Now, I s'pose if the pennants had been attached to halves of pork they would have claimed the butcher meant to make Lawrence look hogish.

NEW COMMANDER OF LEGIO N

Hanford MacNider, of Mason City, Ia., the new national commander of the American Legion, won nine separate citations for valor while in the army and rose from second lieutenant to lieutenant colonel of infantry during his term of service with the Second Division.

His honors include the Distinguished Service Cross with an oak leaf cluster for additional recognition of bravery, the Croix de Guerre with five palms, the Croix al Merite di Guerre of Italy and the ribbon of a Chevalier of the Legion of Honor of France.

MacNider was born in Mason City, Oct. 2, 1889, and was graduated from Harvard in 1911.

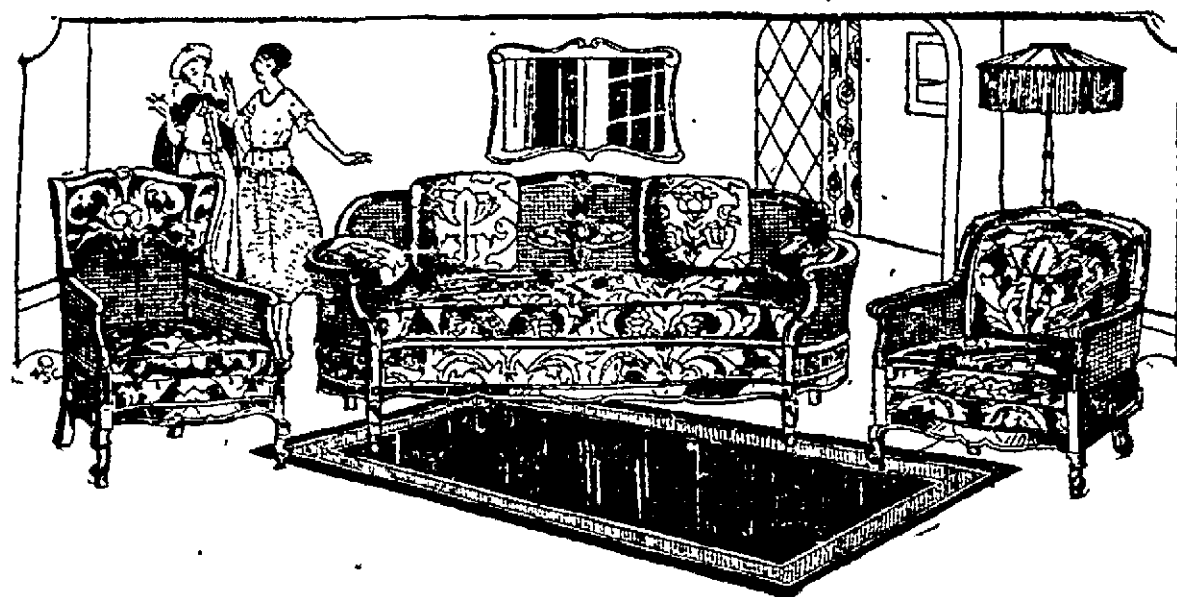

In 1916 he went to the Mexican border with the Iowa national guard. He stayed in uniform until September, 1918, when he resumed civilian clothes as head of a banking investment company.

He was elected commander of the Iowa department of the Legion.

LAWRENCE WHIPS RIPON, 7 TO 3, IN GREAT GAME

Basing Crosses Ripon Goal Line Near Close Of Thrilling Battle

Sensational March Across Field in Closing Minutes of Game Snatches Victory from Jaws of Defeat — Noted Ripon Stars are Dimmed.

Three thousand rabid football fans went into wild paroxysms of rejoicing which were voiced in yells heard a half mile away when Myrtle Basing, sterling halfback of the Lawrence college football team, plowed through the Ripon line with the touchdown which gave Lawrence a hard earned victory and the championship of the Little Five conference late Saturday afternoon. Captain Bill Smith kicked the goal which gave Lawrence its seventh point while Ripon was making three.

The winning touchdown was one of the most thrilling finishes ever seen on Lawrence field. With only six minutes left to play and with defeat staring it in the face, Lawrence started a march from its own 20 yard line which did not end until Basing went over the goal line. With two minutes remaining Ripon used everything in the book to stave off defeat but Lawrence played a great defensive game and the enemy attack was a failure. The game ended with Lawrence just getting started on another procession to the Ripon goal.

The sensational march across the field was a fitting climax to the hard fought battle. Ripon clearly outplayed Lawrence in the first period, tearing great holes through the Blue and White line, but it lacked the last ounce of power necessary to score a touchdown. Gustin scored Ripon's only three points when he droppedkick from the 25 yard line at the very start of the second period.

Goan Starts Attack. Lawrence started its victorious march just after Ripon lost a splendid chance to score. Lane snatching had failed to gain and Ripon began throwing passes from the Lawrence 35 yard line, one of which was intercepted by Basing but the referee ruled that Lawrence had interfered in the play and gave the ball to Ripon on the Blue and White 45 yard line. Three Ripon players failed to get the ball and Gustin missed a drop kick, the ball going to Lawrence on its own 20 yard line.

Goan, who played a wonderful game, started the attack by plowing through tackle for 8 yards. Kubitz followed with another and Grignon made it first down. Basing and Kubitz made six yards in two downs and Goan tore through for five more. Goan again went through for eight yards and Basing added ten more, carrying the ball to Ripon's 45 yard line. Kubitz added five more on a wide end. Grignon again made it first down and then Basing ripped through with a 25 yard run which put the ball on Ripon's 8 yard line. Grignon battered the three Ripon forward wall for 4 yards. Basing added another yard and Kubitz put the ball a scant two feet from the coveted line. On the next play Basing ripped through for about 4 yards and the game was won while the immense crowd went wild. It was the most exciting moment in a football game here in years.

Lost Two Chances. Lawrence lost two good chances to score because poor judgment was used in calling plays. Once, at the very start of the first quarter, Lawrence worked the pike to Ripon's 15 yard line on an exchange of punts and line smashes but instead of calling tricks or forward passes Stark was called back from end to try a drop kick and the ball went wild. In the second quarter, with Goan making long gains around the Ripon ends, Goan was called back for a dropkick on the first down. Three times he attempted to boot the ball between the posts and each time it was blocked. Finally Lawrence lost the ball on downs and the chance to score went glimmering. Kubitz, quarterback at the time, charged that his decision to carry the ball instead of trying dropkicks was overruled by other members of the team.

Starks Are Dim. The Gustin-Schneider combination failed to work at all. The great Ripon end was so thoroughly covered that he did not catch a pass and Gustin was so hurried in his throws that he could not find the ball accurately. As a result only three of the thirty or forty passes attempted were completed. Two were intercepted by Lawrence men and the rest were grounded. Twice Lawrence was penalized for interfering with a man trying to catch a pass. Gustin carried the ball only three times and did not gain to exceed 10 yards.

Toward the end of the game the Lawrence backs, aided by a churning line, were able to make good gains around Ripon and this kind of an attack resulted in the lone touchdown. Lawrence tried only two passes during the game and both failed.

A large share of the glory in the victory must go to young Mr. Goan whose first punt added the ends to mauling the Ripon defense and started the Lawrence rally. Lawrence clearly was being outplayed on the offensive until Goan got into the game. He signaled his entrance by skirting the Ripon ends and dashing through their tackle for good gains. Basing,

Lawrence halfback, played about the best game of his career. It was his sterling dash of nearly 30 yards near the end of the battle which paved the way for the touchdown which he scored. He gained consistently through the line and outplayed Gustin. His only fault was that in placing his punts he sent them out of bounds too close to the line of scrimmage and lost considerable ground in that manner. Berry played a splendid defensive game, backing up the line in fine style. He showed himself to be a real fighter while carrying the ball.

Kubitz Comes Back. Kubitz came back in dazzling style in his last battle with Ripon. After going rather badly most of this season he hit his real stride Saturday and squirmed and dodged through the Ripon line for splendid gains. Like Goan, he ran away from his interference a few times and once he ran the entire width of the field and still made five yards before he was downed. It was one of the most spectacular runs of the game. He ran the team well from quarterback.

Smith, McGlynn and Hunting were veritable bores in the line. For awhile the enemy gained through that trio because they were fearful of the Ripon passes but they soon found themselves and after that presented a stone wall. McGlynn stopped many a Ripon back before he got well started. Blackburne also acquitted himself in splendid style.

Captain Jerdee was the defensive star of the Ripon team. The Red and White tackle was in every play that came over his side of the line and opened up many of the holes through which his backs charged for good gains.

Lunde and Clement, in the backfield, outshone their mate Gustin in advancing the ball. Clement caught the three forward passes which were completed and made many of the gains through the line. Lunde was injured and had to be taken out. Ludwig, replaced him, made a few gains in his first few attempts but the Blue and White line soon learned how to stop him.

Passes Are No Puzzle. Ripon advanced close enough to the Lawrence line for Gustin to try four dropkicks. He also tried one from the 45 yard line which did not go more than half way to the goal. He was so hurried in his kicks that they went wild.

All except three of the Ripon passes were thrown from a punt formation in which the backs shifted to one side of the line and a tackle played inside in order to make him eligible to receive the throw. Lawrence men, however, covered the eligible men, so carefully that Gustin, hurried as he was by charging linemen, could not find a free man to throw to and consequently hurried the ball wildly. Lawrence men, in their efforts to cover the Ripon players lost many a chance to intercept a wildly thrown pass.

The ball was fumbled only once during the afternoon and recovered by the team which dropped it. Lawrence recovered three blocked drop kicks and one blocked punt.

Heavy penalties were inflicted on the Lawrence team, losing nearly 100 yards in the process. Most of the heavy penalties were for charging a man attempting to catch a pass and these penalties gave Ripon several substantial gains.

The Lineup:
Lawrence: Holmes, Schaefer, Blackburne, Graf, Ketchum, Emigh, Smith, Boon, Hunting, Gunderson, McGlynn, Jerde, Starke, Schneider, Ziebell, Gustin, Basing, Clement, Doetscher, Lunde, Berry, Trantow.
Substitutions—Kubitz for Ziebell, Roeder for Kubitz, Goan for Doetscher, Grignon for Berry, Doering for Stark, Brum for Hunting, Ludwig for Trantow.

FLORIDA FEARS EFFECT OF STORIES OF STORM
The chamber of commerce of St. Petersburg, Fla., has sent W. L. Daring, local agent of the Northwestern road, a bulletin to be posted which reads:

"It has come to our attention that many of the newspapers in the north have carried the story that St. Petersburg has been seriously injured by a severe storm."

"The newspaper reports have been greatly exaggerated. There has been no serious damage."

"We are advising you in regard to this because of the fact that we wish our prospective tourists to be correctly advised of the situation that exists."

"Trusting you will use this information to allay any report you may hear to the contrary and regretting the injurious propaganda that has gone out to northern papers regarding this storm, I am, very truly yours, B. A. Lawrence, Jr., secretary."

OSHKOSH BEATEN BY LA CROSSE NORMAL
La Crosse, Wis.—La Crosse normal football team Saturday defeated Oshkosh Normal 7 to 6 in one of the hardest fought and most interesting games seen here in years. The game was played on a field made slippery by falling snow. If La Crosse and Oshkosh had been playing their remaining games, a game for the state championship will be staged here between these teams. Oshkosh played a vigorous uphill game in the second half. McAdams finally scoring a touchdown by a brilliant sixty yard run.

Canadian Champ Coming

Here, fans and fannettes, is Mr. Jack Rogers, champion wrestler of His Majesty's province of Canada. Mr. Rogers will come to Appleton Wednesday night to grapple with one George Hill who claims the championship of Wisconsin and is ready to defend it against all comers.

Considerable fuss is being made about the affair. Mr. Hill's famous headlock with which he has been known to squeeze unfortunate gladiators into meekness and submission. It is charged by sundry persons that Mr. Hill would be as helpless as a two year old infant if the squeezing hold were barred out of the arena and that the Badger champ would last about as long as an snowball in a furnace if he would content himself with wristlocks, body scissors and other alleged jangle holds.

These charges have got a rise out of Mr. Hill and he says he is going to show the crackers a few tricks they never heard about next Wednesday evening. He won't agree to bar the headlock, inasmuch as that is the shortest and easiest way to his bread and butter, but he is going to put a few twists on Mr. Rogers that will give him fully as much worry as the head hold.

And maybe he will have to do it. Mr. Rogers, remembering what happened a year ago when Mr. Hill got his head in the crook of his arm, has perfected something of a defense and grins happily when he thinks of what he will do to the local man. Rogers isn't any slouch himself when it comes to wrestling and it ought to be a good fight.

If Mr. Rogers can be forced to roll over on his back or cry quits it will mean that Hill is at least as good as Mr. John Preberg, the Chicago giant who labored for nearly two hours recently to pin Rogers's shoulders to the canvas. A victory for George, meaning Hill, probably will result in matching Preberg with the local man in the near future.

OLD ELI FAVORED TO WHIP HARVARD
Yale's Showing Against Princeton Stamps Team as Real Contender

New York.—The smashing plunging, capable band of football warriors that carried the Blue standard of Yale to victory over the Princeton eleven on Saturday at New Haven is ranked, because of that triumph, as too strong a foe for the eleven of Harvard, which the bulldog meets next Saturday in the last of the season's big three clashes. Princeton has won from Harvard and lost to Yale.

Capt. Malcolm Aldrich's kicking toe was the real factor in Yale's victory over Princeton, for the two field goals that Aldrich lifted between the posts carried the bulldog to its 13 to 7 score.

Charlie O'Hearn, the Eli quarterback, made the Yale touchdown in the opening period.

Penn State's eleven, undefeated during the season, drove to a 13 to 7 victory at Philadelphia over the Navy which had up to that time a series of unbroken victories. There were times during the game when it appeared as though the midshipmen would be unable to stem the Penn State attack but they came back strong in the second half and, while holding their adversaries scoreless, were in striking distances of their goal on numerous occasions.

Harvard represented mostly by second string men, found a stubborn foe in Brown but fought determinedly in the last quarter and scored a touchdown that brought victory, 9 to 7.

Pennsylvania launched a counter offensive in the last minutes of its game at the Polo grounds with Dartmouth and managed to tie 14 to 14. The Army found its easiest opponent of the season in Villa Nova and swept to a victory of seven touchdowns, 42 to 0.

Knute Rockne went on a little scouting trip all by his lonesome. He wanted to give Marquette the once over and the Notre Dame coach blew into Milwaukee unheralded. He even attempted to buy a ticket to the Marquette North Dakota game. But his race went wrong. A Marquette manager gave him the slip and he was escorted him to a seat in the press box. Then as if to add insult to injury, the Marquette rosters gave him a yell.

Two good high school games are scheduled for this week end. East Green Bay plays Appleton while Marinette has it out with Superior.

LITTLE CHUTE IS DEFEATED IN GAME FOR VALLEY TITLE

Kaukauna Legion Squad Two Touchdowns Stronger than Hollanders

Kaukauna.—Little Chute football team submitted to a defeat at the hands of the Kaukauna American legion Sunday afternoon by the score of 15 to 0, thereby ending all controversy as to which team has the right to claim the Fox river valley amateur championship. It was a clean hard fought game and Little Chute proved a worthy opponent for the Buckeye aggregation. Two touchdowns, one 15 seconds before the first half ended, the other 45 seconds before the end of the third quarter and a safety in the final 40 seconds of the game, accounted for Little Chute's defeat.

In the first quarter the Hollanders clearly had an advantage over Kaukauna and kept the ball in their opponent's territory practically the whole period. Neither side could keep the ball very long because the field was slippery. Punting was resorted to frequently with the advantage with the visitors. The entire game was played during a steady fall of snow.

With the beginning of the second quarter the tables turned and the legionaries came back with aggressive attack that could not be stopped. A forward pass, Schroeder to "Bugs" Brenzel brought the ball from the 35 yard line to the 15 yard line but lost it on downs.

Little Chute worked the ball back to the 40 yard line on a punt and Kaukauna punted back. The pigskin was fumbled and grabbed off by "Cooney" Brenzel on the 15 yard line. The legion then went over for a touchdown.

In the third quarter the legionaries scored again. The Hollanders were forced on the defensive in the last half. When the oval came into their possession they punted. The legion ploughed its way down the field in the last quarter and once more lost the ball only a few feet from the goal line. It recovered again on the 20 yard line. A pass from the 12 yard line was intercepted by a Little Chute man who stopped over the goal line in his catch and was tackled for a safety.

In spite of the weather more than 500 people attended the game, a good many of them with the visiting team. The Little Chute band accompanied the squad and headed a parade of about 20 automobiles and trucks.

COLLEGE MAT MEN SHOW GREAT SPEED

Amazing speed is being shown by Lawrence college wrestlers, who are getting well started in their preparations for the heavy schedule which is being arranged. Coach George Hill is training the men to get around rapidly and they are improving with every day's work. Hill thinks he will have the fastest squad in the state.

Lawrence is preparing to take a fall out of the University of Wisconsin mat team if the latter will agree to meet the Blue and White. Efforts are being made to arrange a match. The squad now is of record size and is constantly growing. Among the old men back on the squad are Keith Anderson, 125 pounds; A. Schimmel, 125 pounds; E. McConder, 135 pounds; M. Swanton, 145 pounds; Mark Anderson, 145 pounds; Ralph Thomas, 155 pounds; H. Stoker, 155 pounds; W. Pace, 155 pounds.

DRY AGENTS SWEEP ON KENOSHA HOME BREWERS

Kenosha.—Home brew received a staggering blow in Kenosha on Saturday, when Federal Agents Duke and Martin of Milwaukee swooped down on the city and made a dozen raids on various resorts where alleged soft drinks were being sold. At the Anderson park resort, it is charged, they found 300 bottles of home brew in the basement. They took a liberal supply of samples, intimating that further action would be taken if the chemical analysis warranted. Anderson was recently haled into a local court on a home brew charge, but was released on grounds on insufficient evidence.

PLESTINA GETS HIS CHANCE TO SHOW UP 'TRUST'

Heavyweight Grappler Tackles Pesek at Tex Rickard's Show Tonight.

By Henry L. Farrell
By United Press Leased Wire
New York.—One perfectly good "wrestling trust" is all wrapped up and tagged for the storeroom tonight in Madison Square garden.

At least one Martin Plestine says so. For some reason or other, Martin's lodge card couldn't be found by Jack Curley's outer guard and while the "beef trust" of the wrestling king was pulling in the big cash, for two hard winters, Martin was forced to do all his fight on the small time.

Then George L. Richard, czar of boxing in New York, branched out into the private territory of his arch rival, Richard announced that no union cards were necessary for a "rascal" to get on the mat in the garden.

So Plestine makes his debut in the open shop ranks tonight with John Pesek, the "tiger man."

Richard says it is for the American wrestling championship and that he will work the winner up for a match with Zbyszko for the world's title.

While Plestine was camping outside Curley's door and waiting, he was blacklisted by the "trust," the members of the union laughed at him and said that he was good enough to mingle with the select circle.

If Plestine doesn't win tonight against an opponent who is spotting him a number of pounds, the "trust" will have that most gratifying comeback—"we told you so."

High School Team Will Play Nebraska Eleven On Thanksgiving Day

WESTERN TITLE IS AWARDED TO IOWA

Ohio's Loss to Oberlin Has Spoiled Its Chances for Championship

By United Press Leased Wire
Chicago—Iowa's unbeaten eleven has practically clinched the western conference championship. Though Ohio State has an excellent chance to complete the big ten schedule without a defeat, the Buckeye's loss to Oberlin by 7 to 6 in the season's opener largely discredits this among football experts for titular honors.

The Hawkeyes play Northwestern in the final tilt next Saturday and should win by a wide margin. Ohio must meet Illinois in what should be a stiff battle.

Notre Dame, which trimmed Army and Rutgers, fell before Iowa. This victory alone ranks Coach Howard Jones' eleven as one of the greatest in the middle west.

"Experts will not go wrong in awarding the western gridiron championship to Iowa," declared Walter Eckersall, former star Chicago football player and western sport critic. "It has been the most successful year in Iowa's football history and the coach and players are deserving of credit."

By holding Wisconsin to a 7 to 7 tie, Michigan eliminated the Badgers from championship consideration.

VALLEY MAGNATES MEET AT MENASHA ON TUESDAY

Affairs of the old Fox River Valley league will be cleared up and preparations for a new circuit will be started when valley magnates meet at Menasha Tuesday evening. John Klumwin, Oshkosh lawyer, is head of the new league, and will offer suggestions for next year's circuit. Magnates from Green Bay, Kaukauna, Appleton, Menasha, Oshkosh and Fond du Lac are expected to attend.

H. M. Culbertson of Menasha, was a business visitor here Friday.

Local Squad Leaves Sunday Morning for Beatrice to Engage Nebraska Champions on Gridiron.

Appleton high school football players, by virtue of their great game in Oshkosh on Friday, earned a trip to Beatrice, Neb., where they will play the powerful Beatrice high school team, champion of Nebraska, on Thanksgiving day. Arrangements for the game in the western city were made some weeks ago but it was not definitely decided to make the trip until after the game with Oshkosh. Beatrice will come to Appleton for a game next year.

The Nebraska team, in arranging the game with a Wisconsin school, wanted to play a representative eleven from the Badger state. Appleton has been a consistent winner for several years and it was this school's record which prompted the Nebraskans to open negotiations for the contest.

The Orange and Blue squad will leave Appleton Sunday morning, immediately after the battle with East Green Bay here Saturday afternoon, and will spend a day in Minneapolis and St. Paul. The next stop will be in Omaha and it is expected that Beatrice will be reached by Tuesday night, giving the team a day in which to get accustomed to climatic conditions and to the playing field. Coach Vincent has not as yet determined who will make the journey.

Next Saturday afternoon, the local squad will attempt to revenge itself for the defeat suffered in Green Bay last year. Green Bay and Oshkosh played to a 6 to 6 tie a few weeks ago, indicating that those squads are of even strength. The Orange and Blue squad believes it would have defeated Oshkosh on Friday if it were not for excessive penalties.

Intensive practice for the two remaining games on the high school schedule was started on Monday.

A slip, wrench, strain, fall or jolt, received weeks, months or even years ago may be responsible for the ailment today. Why?

Every fall, twist or strain is recorded in the backbone; the movable bones are forced out of normal position. Nature then cannot carry a normal flow of nerve force thru the nerve cables, which radiate thru the backbones, when displaced vertebrae are injuring them. The result disease of the organs these injured nerves should feed. Since there is a mechanical interference it should be adjusted mechanically. HEAVY OFFERINGS
CAUSE GRAIN DROP

By United Press Leased Wire
Chicago.—After a show of strength at the opening of the market, grain prices declined sharply on the Chicago board of trade Monday. Heavy offerings with slack buying by commission houses caused the drop.

Provisions were lower in sympathy with grains.

Wheat, December, opened off 3/4 at 1.13 1/2 and closed down 3/4; May opened up 1/4 at 1.13 1/2 and lost 1 1/2 at the close.

Corn, December, opened unchanged at 47 and closed down 3/4; May opened up 1/4 at 53 1/2 and closed off 1/4.

Oats, December, opened up 1/4 at 47 and closed down 3/4; May opened up 1/4 at 37 1/2 and closed off 1/4.
